

Employees Retirement System Energy Conservation Plan

April 2022

Energy Management

Starting in Fiscal Year 2000, ERS began implementing a comprehensive set of energy conservation measures. The agency will continue to do so by implementing the following:

- Retrofitting lighting fixtures for higher efficiency
- Calibrating thermostats
- Adjusting building temperature for seasonal changes and after-hours usage

ERS continues to acquire new training for its employees in such areas as energy auditing, benchmarking, and energy management. In addition, the agency encourages efficient business practices by shutting off task lighting when not in use and limiting the use of personal appliances such as microwave ovens, space heaters and coffee pots.

Energy Consumption

Beginning September 1, 2019, the goal is to reduce the electric consumption by at least 5% each state fiscal year for the next seven years. ERS **met** this goal for the 2nd quarter of Fiscal Year 2022.

Electricity Consumption in Kilowatt Hours (KWH)

	Average FY 13 - 21	Actual FY 2022	Change	Goal FY 2022

Fuel Consumption

ERS has reduced travel over the years by webcasting instead of traveling to make presentations. The agency will continue to analyze the demand for onsite presentations and to substitute webcasts where appropriate.

Fuel Consumption Goal

ERS has a goal to reduce fuel consumption by 5% per year in fiscal year 2022 from the previous fiscal year.

Mileage was used as a measure to track fuel consumption. The 2nd quarter for Fiscal Year 2022 shows a 1352% increase from FY21. Due to the Covid-19 pandemic, our mileage was significantly lower over the past 4 quarters and we expect to see an increase in mileage in each future quarter.
